Pricing Assumptions:

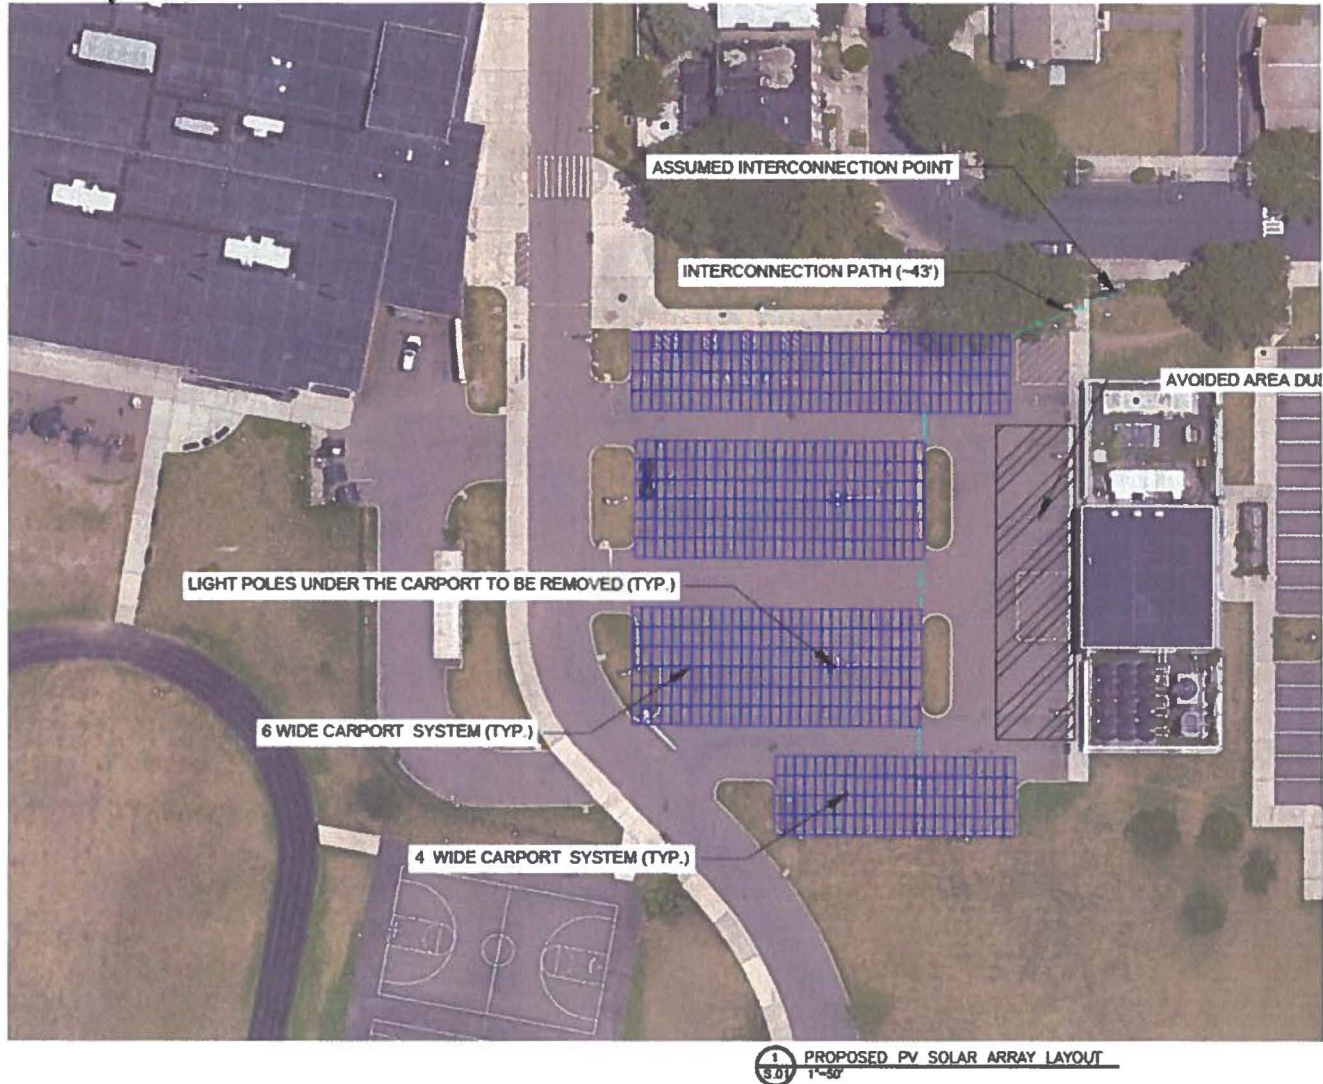

- Interconnection cost for each project assumed to be \$100k. For every \$1.00 over the \$100,000 figure, the rental rate shall decrease by \$0.13157.
- GCE to pay a fine to the city for every tree that must be removed. The fine was calculated as \$250 per inch of the radius of the tree trunk, chest high.
- Any tax applied against the solar project shall be deducted from basic rent
- Construction to take place during the “off season” – guidance on when this shall occur will be at the discretion of the Parks Department.
