PLANNING CONSIDERATIONS

The budget proposal for Fiscal Year 2025-2026 is in alignment with Vision 2025, the City's Comprehensive Plan. Note that several of these bond funds will support the infrastructure management as well as long term planning efforts for Coastal and City Planning managed by the City Plan Department.

As a general point, in its review of the annual budget, the Commission has historically made note of issues relating to the Comprehensive Plan and the operation of the City Plan Department and does not take a line-by-line review of the budget overall. The City Plan Department notes that the proposed FY 2025-2026 budget aims to maintain the current level of city services across departments given the current uncertainty in federal funding opportunities.

ADVICE

Recommend approval.
