Why are you interested in serving on a board or commission?

I am interested in serving because I believe that peace is both a local and global public health priority. Violence, social division, displacement, poverty, and inequity all affect the health and well-being of communities. I would like to contribute to efforts in New Haven that promote dialogue, civic engagement, justice, mutual understanding, and peaceful collaboration across communities. I also see this as an opportunity to connect my academic and public health work with meaningful local service. I value New Haven deeply and would welcome the opportunity to support the city's efforts to build stronger relationships among residents, community organizations, educational institutions, and local government.

Why do you believe you would be a good fit for your selected board and commission(s)?

I believe I would be a good fit for the Peace Commission because my work has long focused on the intersections of public health, conflict, ethics, human rights, displacement, violence prevention, and community resilience. I bring experience working with affected communities, academic institutions, humanitarian organizations, and local and international partners. My background in epidemiology and public health allows me to approach peacebuilding through the lens of prevention, equity, evidence, ethics, and community well-being. I also have experience leading collaborative initiatives, mentoring students, building partnerships, and translating research into practice. I would bring a respectful, thoughtful, and collaborative approach to the Commission's work.

Do you have any time commitments that would prevent you from participating in board/commission meetings? Meeting times can be found by visiting newhavenct.gov/boards, but most are usually once a month for 1-2 hours.

I do not anticipate any regular time commitments that would prevent me from participating in board or commission meetings. I have professional responsibilities at Yale, but I would make every effort to attend and participate actively in scheduled meetings.

Demographics

Some boards and commissions require membership to be politically proportionate, per State Statute on minority party representation (CGS § 9-167a). What is your political affiliation on your voter registration (i.e Democrat, Republican, Unaffiliated, Independent, etc)?

Democrat

In order to stay compliant with our city's charter, are you registered to vote in New Haven?

☒ Yes ☐ No

We strive to maintain diversity in all of our Boards and Commissions. These questions are optional and if you volunteer the information we will only use it to ensure that our boards and commissions are diverse.

Ethnicity

☒ Asian or Pacific islander

Gender

☒ Male

How did you hear about serving on our Boards & Commissions?

Through Manuel Camacho, Chairman of the City of New Haven Peace Commission.

Public Service/Media Presence

Public Services

2023 Panelist at UN High Level Event Committee on “Gross Human Rights Violations Due to the Aggression Against Ukraine.” UN headquarters, Trusteeship Council Chamber, NY.

Media Presence

According to research done by the Communications Office at YSPH, the Humanitarian Research Lab was mentioned by media approximately 2,656 times from March 2022 through October 2024. The total potential number of people reached via this media coverage is 85.5 million. Some of the major media coverage received during that time was on Nov. 17, 2023, when HRL issued its report about Belarus assisting Russia with relocation of Ukrainian children. That HRL report was mentioned 610 times around the world. The second biggest media hit was on Aug. 18, 2023, when media reported fear was growing as Sudan war spreads – 138 outlets covered.

2026 - Yale HRL satellite imagery and open-source analysis was cited extensively in the UN Independent Fact-Finding Mission for Sudan report, “Sudan: Hallmarks of Genocide in El-Fasher,” supporting findings that the RSF committed genocide against non-Arab Indigenous ethnic groups during the siege of El-Fasher.

I have been interviewed twice by US Department of State, Foreign Press Center Briefing on our HRL work:

2022 Interview at U.S Department of State -Foreign Press Center Briefing. Topic: “Russian Damage and Destruction to Ukraine’s Food Storage Supplies.”

2022 Interview at U.S Department of State - Foreign Press Center Briefing. Topic: “Accountability for War Crimes and Other Atrocities in Ukraine.”
