Please explain why you are interested in serving on this board/commission?	I believe in the power of local municipalities and in committees like this to make a difference; how committees like this one are crucial in maintaining and improving the standards of a livable city. I am interested in being a member of the board of City Plan Commission because I am passionate and really enthusiastic about improving the lives of our citizens through creating a sensible and supportive urban environment, and better economic, social and cultural places in the surrounding neighborhoods. Boards like this one, along with other Committees, can contribute for the City of New Haven to become a more livable, more sustainable, more social, affordable and more intelligent city where ALL can benefit of policies and strategies that will encourage residents' sense of well being and inviting wider neighborhood interaction for greater health equity.
