Re: Multi-Year Agreement with Securly for Securly Classroom Tool

Dear Honorable President Walker-Myers,

I respectfully submit the enclosed request for approval by the Board of Alders for a multi-year agreement between the New Haven Public Schools and Securly to provide the Securly Classroom tool covering the period of July 1, 2025 to June 30, 2028.

Securly classroom is a robust classroom management platform designed to create safe, focused, and productive digital learning environments for NHPS students. This tool enables teachers to manage and guide online learning by:

- Monitoring student activity on district issued devices in real time
- Blocking distractions and inappropriate content during instructional time
- Pushing out approved websites and resources directly to student screens
- Facilitating secure communication between teachers and students during lessons.

By providing teachers with greater visibility and control over student device use, Securly classroom supports our district's commitment to digital safety, academic engagement, and equitable access to quality learning tools.

The proposed multi-year agreement ensures cost savings over annual renewals, locks in current pricing for the next three years, and includes ongoing technical support and product updates. Funding for this agreement will be covered under the district's technology budget.

We request the Board of Alders approve this submission for three-year agreement with Securly for the Securly Classroom tool for the period of July 1, 2025 to June 30, 2028.

Thank you for your time and consideration.

Sincerely,

Michael S. Simeone
Chief Technology Officer
