I am newly arrived to New Haven as a faculty member in the Department of Emergency Medicine at the Yale School of Medicine, and also a faculty member with their Hospice and Palliative Department, and am passionate about the care of vulnerable populations, in particular at the end of life, and I believe that serving this population in a civic capacity would be valuable. I just moved to New Haven and will be registering to vote shortly.

Question applies to Board of Public Health

Do you have a doctorate (MD, DMD, etc) in a medical science field? If so, from what school?

MD, MPH, University of Miami School of Medicine, Class of 2020

Why are you interested in serving on a board or commission?

My work in both the emergency department as well as in the world of hospice and palliative medicine happens in clinical spaces, but our patients are firstly citizens and residents of New Haven, and understanding their social context is vital to their overall health. I believe that in serving the city and these patients, I can make meaningful contributions to the overall welfare of residents of the city.

Why do you believe you would be a good fit for your selected board and commission(s)?

Based on my work and credentials, I believe I have the expertise as well as the clinical capacity in my dual roles at the Yale School of Medicine to offer unique perspectives.

Do you have any time commitments that would prevent you from participating in board/commission meetings? Meeting times can be found by visiting newhavenct.gov/boards, but most are usually once a month for 1-2 hours.

No
