Lead Poisoning Advisory Committee: Submitted

Is this an appointment or reappointment request? *

☒ Appointment

Question applies to multiple boards

Are you seeking a mayoral appointment/reappointment or a appointment/reappointment from the Board of Alders? Mayoral appointments go through the Mayor's Office, while Aldermanic appointments go through the Alders Office of Legislative Services. *

☒ No Preference

Question applies to multiple boards

*Note: If this is an appointment or reappointment request for a Board of Alders slot, please contact the Office of Legislative Services (OLS) at (203) 946-8371 or at alucas@newhavenct.gov if you have any questions on the progress of your appointment. The Mayor's Office is not involved in the timeline of Aldermanic appointees, but forwards any interested applicants for those slots to OLS.

Upload a Resume

If not submitting a Resume or CV, please submit a ~150 word Statement of Interest as to why you are interested in serving on your selected boards/commissions. If you have uploaded a resume, you can write n/a.

I continue to see elevated lead levels in children at a rate that has not significantly decreased in the nearly 10 years I have worked as a general pediatrician in New Haven. Part of my duty to help families and children is to also address the larger environmental and social causes of poor health. By serving on the city's lead poisoning advisory committee, I hope I can foster a connection between city efforts to improve lead abatement and the clinicians who care for the families impacted by lead poisoning.

Why are you interested in serving on a board or commission?

My responsibility to my patients is not limited to the encounters we have in the examination room. Having a greater understanding the various initiatives and coordinated efforts amongst city agencies responsible for lead education and abatement will also help the community of physicians who care for these families. I hope I can bring to the committee a better understanding of how lead impacts New Haven children, and in turn, I'd like to share what I learn about city-wide lead abatement efforts to other clinicians so they can take better care of their patients.

Why do you believe you would be a good fit for your selected board and commission(s)?

I actually think there may be more qualified physicians to serve on this committee -- namely, Dr. Erin Nozetz, who is the associate director of the Yale Lead Toxicity Clinic (please, re-invite her to join!) My qualifications include having taken care of many children who have been affected by lead toxicity; being able to communicate to a large base of pediatricians and clinicians who care for children in the greater New Haven area and at Yale Health; and simply having the time to be prepared and serve on a committee that does such work.

Do you have any time commitments that would prevent you from participating in board/commission meetings? Meeting times can be found by visiting newhavenct.gov/boards, but most are usually once a month for 1-2 hours.

No
