FUNDING LEVEL AVAILABLE TO PROJECT: \$ 50,000

FUNDING SOURCE: United Illuminating Community Partnership Initiative Program

PURPOSE OF PROGRAM: To increase enrollment in energy efficiency improvement programs with a focus on deep energy saving measures and heat pump adoption among income-eligible residents, renters, and residents with limited English proficiency.

BRIEF SUMMARY OF CITY'S PROPOSAL: If awarded, the City of New Haven and Neighborhood Housing Services (NHS) will partner with community-based organizations, social service providers, civic leaders, and City departments to increase enrollment in Connecticut's Home Energy Solutions energy efficiency improvement program. This campaign will aim to increase the adoption of deep energy saving measures and heat pumps among income-eligible residents, renters, and residents with limited English proficiency. Special focus will be placed on DEEP-designated environmental justice census tracts in West Rock/West Hills, Newhallville, Dixwell, the Hill, Fair Haven, and the Annex neighborhoods. Residential energy efficiency referrals will be made to NHS' I Heart My Home energy concierge program, which guides residents through maximizing their benefits in the Home Energy Solutions program.
