The applicant, Yale New Haven Hospital, Inc. ("YNHH"), respectfully submits this Petition/Application and general plans to the City of New Haven Board of Alders ("Board") requesting an amendment of Planned Development District #45 ("PDD") pursuant to Section 65 of the Zoning Ordinance of the City of New Haven ("Ordinance"). YNHH seeks approval of the proposed PDD amendment to allow certain necessary signage related to the redevelopment of the Saint Raphael Campus ("SRC"), which was approved in 2020 and is currently under construction.

A. OVERVIEW

This Petition to amend the PDD to allow certain signage is the final step in completing the redevelopment plan of the SRC, as approved by the Board in 2020 (the "Project"). While most signage for the Project is permitted under the current Ordinance, YNHH requires a modest amendment in order to accommodate two (2) signs needed for identification of the new Adams Neurosciences Tower – Saint Raphael's Campus of YNHH ("Neurosciences Tower"). The requested PDD amendment is limited to modification of certain signage standards necessary for approval of the Neurosciences Tower signage ("Neurosciences Tower Signage").

B. COMPLIANCE WITH PDD STANDARDS AND OBJECTIVES IN SECTION 65 OF THE ORDINANCE

Section 65(a) of the Ordinance sets forth the objectives to be considered by the Board of Alders in reviewing an application for a PDD. The objectives set forth in Section 65(a) that are applicable to YNHH's proposal are as follows:

- 1. "In accordance with the comprehensive plans of the city, including all plans for redevelopment and renewal";
- 2. "Composed of such uses, and in such proportions, as are most appropriate and necessary for the integrated functioning of the planned development and for the city"; and
- 3. "So designed in its space allocation, orientation, texture, materials, landscaping and other features as to produce an environment of stable and desirable character, complementing the design and values of the surrounding neighborhood, and showing such unusual merit as to reflect credit upon the developer and upon the city ..."

The proposed PDD and associated improvements comply with the above standards. First, it is in accordance with the City's comprehensive plan as found in its Zoning Map and Zoning Ordinances. The Zoning Map and Ordinance already designate the Project area as PDD 45. The PDD was adopted in connection with a 1982 redevelopment of the SRC and amended in 1983 and 2020 to accommodate the changing campus.

In addition, the overall design and proportions of the Project were reviewed in detail and approved by the Board in 2020 ("2020 Amendment"), which also acknowledged the need for future approvals to accommodate signs like the proposed Neurosciences Tower Signage. Although the Neurosciences Tower Signage exceeds the square footage allowance for on-premise wall signs under provisions of the existing Ordinance, the overall size of the proposed signs is appropriate to the overall design given the scale of the Neurosciences Tower and SRC development overall.

C. COMPLIANCE WITH TRACT AREA REQUIREMENTS

The existing PDD of approximately 14.6 acres meets the minimum tract size requirements set forth in Section 65(b)(2) of the Ordinance. YNHH is not proposing any change to the existing PDD boundary in connection with this Petition. A legal description of the overall PDD area is set forth in **Exhibit 1**.

D. DESCRIPTION OF PROJECT COMPONENTS

As noted, this Petition follows the 2020 Amendment approving the SRC redevelopment that is currently under construction. While the 2020 Amendment included a general overview of anticipated signage, it did not include specific provisions to vary existing sign regulations necessary to the approval of the Neurosciences Tower Signage. YNHH has since developed its overall signage package and identified the Neurosciences Tower Signage as exceeding current sign area allowances, which is the subject of this Petition.

Specifically, the relevant Neurosciences Tower Signage includes a new "Yale New Haven Health" on-premises wall sign fixed to the exterior of the tower at the penthouse level and canopy mounted sign for "Yale New Haven Health Adams Neurosciences Center" at the facility entrance. Details regarding the Neurosciences Tower Signage is depicted in **Exhibit 2**.

E. DELINEATION OF USES TO BE PERMITTED AS OF RIGHT IN PDD

The permitted uses for PDD 45 include medical offices and hospital uses, as well as other related uses identified in Exhibit E of the 2020 Amendment. YNHH is not proposing any change to the existing permitted uses.

F. BULK/YARD STATISTICS

The existing bulk and yard requirements applicable to PDD 45 are set forth in Exhibit F to the 2020 Amendment. With the exception of the signage deviations referenced below, no deviations from existing zoning requirements are proposed.

STANDARD	REQUIRED/PERMITTED IN	PROPOSED PDD
	UNDERLYING BA/RO	(Deviations)
	DISTRICT	
Maximum total	Varies	3 square feet per linear foot of front
area for		building wall

G. SIGNAGE REQUIREMENTS APPLICABLE TO PDD

The petition in support of the 2020 Amendment specified the design standards applicable to SRC signage overall, which generally incorporate the YNHH logo and color palette consisting of a dark blue background with text and accents in white and light blue. In addition, an illustration of typical YNHH signage was included as Exhibit G to the 2020 Amendment.

The proposed Neurosciences Tower Signage is consistent with the design style and representative imagery previously identified and approved in connection with the 2020 Amendment. Because existing sign area allowances do not allow for signage of an appropriate scale and proportion to the Neurosciences Tower, YNHH proposes limited deviations from signage regulations in the existing Ordinance, as set forth in **Exhibit 3**, in order to accommodate the Neurosciences Tower Signage. The proposed deviations are consistent with allowances for onpremises signage in the BA zone (one of the underlying zones of PDD 45).
