November 18, 2025

Dear Alder Hubbard:

Enclosed you will find a petition signed by 19 residents of Minor Street, in the city of New Haven, CT. The purpose of the petition is to request that Minor Street, between Howard Avenue and Cedar Street, be designated a Residential Parking Zone.

This short stretch of road is only 2 blocks long where the Cornell Scott Hill Health Center, Recovery & Wellness Center is located and is near the Yale School of Medicine. Many non-residents park on this street for the entire day and overnight rather than use the designated Yale parking lots/garage, leaving no available parking spaces for residents of Minor Street.

For this reason, we are asking for your signature and support to have Minor Street be designated as Residential Parking Zone. We would greatly appreciate it if you would review the petition and signatures and present this request to the appropriate agencies (Board of Alders City Services and Environmental Policy Committee and City Planning) for approval. We understand that the process can be lengthy, so we are asking you to expedite this request so it can be heard during the December 4, 2025 CSEP meeting and hopefully make the January 21 City Planning Meeting.

If you have any questions regarding this request, please feel free to contact me. Thank you for your attention.

Sincerely

Janice Parker
