The Port Authority manages the public's interest in New Haven's port, which is a vital piece of infrastructure. Of particular interest, the Port is undergoing a masterplanning process and understanding its role in New Haven for the next 10-20 years. As the City Engineer, I can provide input and advice regarding infrastructure and bring expertise to the Port Authority.

Are you currently employed by the City of New Haven or the New Haven Public School System?

☒ Yes ☐ No

Why are you interested in serving on a board or commission?

Serving the public is very important and is the foundation of democracy. In particular, I enjoy working with the committed residents on the Port Authority to improve the operations of the port within the larger context of its neighborhood and New Haven as a whole.

Why do you believe you would be a good fit for your selected board and commission(s)?

The City Engineer has been on the Port Authority since its inception, and typically has professional expertise and experience to offer the Port Authority around the development of infrastructure and the evaluation of natural events that may affect the port.
