Kenya Adams-Martin
Over the past twenty years, my family have made relationships with our local government such as, advocating for social justice, partnershipping with park and rec, friends of east rock park URI, the state streets merchants and local churches to brighten our everyday life. There are four generations in my household starting with my mother Betty Thompthson, who is a local icon in the cedar hill and New haven community. Showing stored ships for our city parks and outside spaces. Based on the things I mentioned, I hope you get an understanding of who I am. Thank you.
