

### **Statement of Interest**

I would like to serve on this committee because I understand the needs of the senior being an active senior in the city of New Haven. I from time to time am engaged with the Dixwell management Team as a resident and worker for New Haven Works. My scope of services and experience reach from the Homeless, reentry and people struggling with basic needs. I am involved with United Way and the Ct Foodshare. I see and hear the struggles that seniors face on a daily basis with increasing cost of rents and being able to pay for medical and the escalating cost of food.

I feel that this platform will be able to address and come up with solutions that will increase resources for seniors and programs that will raise awareness.
