Justin Elicker, Mayor • Maritza Bond, MPH, Director of Health

### **EXECUTIVE SUMMARY**

The New Haven Health Department seeks funding from the Connecticut Department of Public Health to continue immunization program activities.

With this funding from the Immunization Action Plan grant, the New Haven Health Department will continue to conduct telephone and community-based outreach to families in New Haven, and the Greater New Haven area, with children under the age of two to educate them on the importance of remaining up-to-date on age-appropriate vaccines. Each month, a list of children who are non-compliant with age-appropriate vaccines will be provided to the New Haven Health Department from the Connecticut Department of Public Health via the CT WiZ vaccine registry. This list of children will be used as the primary basis for outreach.

Outreach will be conducted by 0.5 FTE Community Health Worker, under the direction of the Program Manager.
