Description	FY 22-23	FY 22-23	
Description	Mayor's Proposed	BOA Approved	
City Activity - LCI's goal under the acquisition program is to rehabilitate, preserve, restore and conserve structures and properties with the goal of returning acquired property to the tax base via low/moderate homeownership or low/moderate rental units. Equally important is the utilization of acquired properties to enhance the quality of life of City residents and support public works, facilities and improvements. The success of LCI's acquisition program, as it correlates to LCI's mission, is the ability to provide property for commercial development, park or recreational uses, housing ownership opportunities, or other uses which will contribute to the general health of residents and provide safer, more stable neighborhoods. Eligible expenses under this program will be activity delivery costs, land cost, surveys, appraisals, title searches and other costs necessary to affect acquisition. Funding will be used in the CDBG eligible neighborhoods of Fair Haven, Dwight, Newhallville, Dixwell and Hill.	\$ 35,000	\$ 35,000	
Habitat for Humanity requests CDBG funding to assist with the acquisition of six vacant lots or single family homes in the Hill, Newhallville, Fair Haven, Fair Haven Heights, Amity or West Rock neighborhoods. Habitat will construct or substantially rehabilitate these acquired properties to create six new single-family energy efficient homes which will be sold to low income working families. Habitat for Humanity builds single-family homes in partnership with a qualified low-income family or individual. Potential homeowners must have incomes between 30-60% of the AMI and are required to help build their homes with a minimum of 400 hours of volunteer labor or "sweat equity". Homes are sold at below cost with a zero percent interest 25 year mortgage held by Habitat. No bank financing is involved. CDBG funds are used for property acquisition only. Construction is financed with leveraged funding from a variety of sources including private foundations, financial institutions, corporations, religious congregations and donations from private individuals. Volunteer labor from throughout Greater New Haven and in-kind support helps to complete property construction at below market costs	\$ 20,000	\$ 20,000	
City Activity: The Property Maintenance Program provides the repairs and operating expenses necessary to	\$ 243,024	\$ 243,024	
maintain housing units acquired through tax foreclosure proceedings to prevent further blight conditions in deteriorating neighborhoods primarily in low and moderate-income areas. Buildings are secured, debris is removed, and overgrowth is cut down on these blighted properties.	Ψ 240,024	240,024	
City Activity: Funds will be used to support activities which include joint marketing efforts in commercial areas; business planning assistance; façade and building renovations through the city's Façade Improvement Program; Streetscape improvements such as the installation of public infrastructure upgrades to sidewalks, curbs, street furniture, street trees, planters, signage, and other permanent improvements to entryway corridors in critical commercial districts. Specific program elements are intended to enhance the physical infrastructure, stabilize commercial districts and support employment growth in the districts. Funding may also support acquisition costs of commercial properties/structures and support of commercial development.	\$ 273,241	\$ 248,241	
Location: 28 Orange Street. With CDBG funding, Collab will provide high-quality entrepreneurship programming to support entrepreneurs. Funds will support direct programmatic costs for two cohorts of the Collab Accelerator for FY2024 (July 2023 - June 2024), as well as support wraparound accessibility services (including interpretation, childcare, Zoom and space rental). With the CDBG funding and partnership, Collab will be able to provide high-quality entrepreneurship programming to support entrepreneurs in neighborhoods across the City of New Haven. Funds will support direct programmatic costs for two cohorts of Collab's program — the Collab Accelerator. The cohorts to be supported include: 1) High-Touch Staff Support for Program Training, Implementation, and Coaching: Collab takes an intensive approach to working with entrepreneurs of all backgrounds. Collab staff and program managers provide weekly 1-on-1 coaching sessions and weekly educational workshop trainings. 2) Wraparound Services for Program Accessibility: Many people of color, low-income, and women entrepreneurs face logistical, financial, and psychological barriers to entrepreneurship and participating in programs. To address these barriers, Collab provides (1) Zoom access for virtual programming; (2) Office Hours for 1-on-1 support before and after the program; (3) Interpretation and translation services; childcare and more throughout the City of New Haven. Project anticipates assisting 45 persons in the Accelerator Program and 75 persons the Office Hours Program.		\$ 20,000	
Location: 830 Grand Ave. EMERGE is committed to helping formerly incarcerated adults make a successful return to their families and their communities. EMERGE operates a Transitional Employment Program offering paid, part-time job training and employment to the clients they serve. To ensure long-term independence and success of program participants, EMERGE provides wraparound supportive services like parenting classes, life coaching, and mental health services. The program model is designed to prepare clients for future jobs and family life and to end the pattern of recidivism. To ensure success of the program, EMERGE has requested CDBG funding to compensate the provision of services including a job and life coach to assist with goal setting, training and service plans, job placement after training and providing life skill coaching. Funds will also support a supervisor/peer mentor to work alongside clients on job sites; and a project director to monitor program implementation and measure outcomes. The program proposes to provide services to 45 participants.	\$ 70,646	\$ 70,646	
City Activity. Funding will be used to support programming that helps small, local, minority, and women-owned construction companies achieve economic growth through increased opportunities, bid notification, technical assistance, project-specific training, goal-setting and monitoring, and services that maximize the growth and profitability of businesses. The Small Contractor Development program will use CDBG funds to provide project monitoring, technical assistance, training, workshops and networking events to address challenges faced by small, minority and women-owned construction businesses. Over the upcoming year the SCD Program will use funds to support its Build Green Contractor Training Program will provide small businesses with training opportunities to participate in the local green and energy efficient building market. Funds will also support the provision of Construction Business Literacy workshops. The program is projected to benefit 375 persons.	\$ 71,646	\$ 71,646	

				ı	
Description	Ma	22-23 ayor's posed	Y 22-23 BOA pproved		
81 Olive Street: CERCLE works with early childcare programs operating in the City of New Haven to help them understand the issues affecting their businesses, and the resources they need to continue to offer quality child care and education to New Haven's young children, to operate small and medium-sized businesses essential to the viability of their community, and to provide employment opportunities throughout the city. With CDBG grant funds, CERCLE seeks to continue its work to support early childhood education businesses by improving the professional development and the business practices of early childhood educators operating businesses in New Haven. With the funds requested, CERCLE will strengthen the framework for its Early Childhood Education ECE Teacher Apprentice Program/ High School Achievers Program, a new pilot program between CERCLE, the New Haven Public Schools (NHPS), and Southern Connecticut State University. This pilot program will allow NHPS high school students interested in pursuing careers in the teaching field to receive a minimum of one year of paid on-the-job training at a NAEYC accredited child care program, access to higher education courses at no cost, and free ECE professional development training. The goal for this pilot is to equip a minimum of ten (10) high school students who have successfully completed the training program with at least one year of work experience, their Child Development Associate (CDA) Certificate, and at least twelve Higher Education course credits upon graduation from high school.	\$	25,000	\$ 25,000		
City Activity: The City's Office of Economic Development (OED) will use funding to provide direct technical assistance to startups and existing businesses through the Small Business Resource Center Program (SBRC). OED will work with businesses on issues related to business planning, securing capital, management and operations, and expansion and growth. Program participants will be provided with one-on-one counseling, referrals to partners, access to educational programs, and referrals to funders for capital. The proposed project will address the City's stated priorities regarding employment opportunities with the creation of more successful new businesses. SBRC's assistance will support new entrepreneurs' ability to start new businesses. SBRC also will provide technical assistance to help entrepreneurs with existing businesses better operate and grow their business. This project will further enhance the City's development of new employment opportunities by connecting entrepreneurs with local banks and early-stage business investors. The project will also provide access to resources, including financing and ongoing mentoring and guidance. Finally, this project will help increase employment opportunities by helping existing businesses identify new markets and grow their sales, with better marketing, advertising and social media.		206,863	\$ 206,863		
45 Dixwell Ave.: Funds will be used for the purchase and installation of exterior security lighting and audio equipment for the observation rooms. LED fixtures will be installed on the front exterior of the building, which is approximately 115 ft long. These fixtures will provide enhanced lighting and security for neighborhood residents as they pass our building on Dixwell Avenue. The side entrance and parking area will also be enhanced with new LED fixtures to increase safety and security for staff and program participants. 'rkids will also purchase and install audio equipment for the observation rooms, providing enhanced services to families.	\$	-	\$ -		
253 Columbus Ave.: The Boys and Girls Club Clubhouse was built in 1989 and very little work to the infrastructure has been done in the 30 years since the building was opened. Last year, CDBG funds were allocated to support heating unit replacement. This year, funds are being requested to complete the air quality improvements with replacing the facility's mounted AC units to enhance and improve air quality. In preparing for the roof being replaced in the near future, the units will be raised to be ready for future improvements.	\$	25,000	\$ 50,000		
400-428 Columbus Avenue: Cornell Scott- Hill Health Center (CS-HHC) requests CDBG funding to expand and enhance dental services at its Dental Clinic located at 400-428 Columbus Avenue. Funds will be used for the replacement of current dental chairs that are beyond their useful life. Replacement of the chairs will reduce repair costs, reduce the time chairs are "down" for repairs, and will increase patient capacity. New chairs will help to provide more efficient cleanings, fillings and dental exams and will be more functional in accommodating patients with disabilities. CDBG funds will help purchase and install six (6) new dental chairs. An additional two (2) chairs will be purchased with leveraged funding for a total of 8 new chairs. The Dental Clininc serves about 3,000 clients annually.	\$	-	\$ -		
266 State Street: In December 2020, DESK purchased the three-story building at 266 State Street (between Chapel and Crown), just two blocks from the New Haven Green, to serve as New Haven's first Downtown Drop-in & Resource Center (DRC) serving homeleess and at-risk populations. In its prior use, the main floor had been a commercial storefront and the second and third floors had been used as one-bedroom apartments. DESK is in the process of executing a multiphase plan to renovate the entirety of the building, putting an elevator on the back (west) side, outfitting the second floor as a medical clinic for Cornell Scott Hill Health Center's Homeless Healthcare Department, and modifying the third floor apartment to be used as administrative space (with possible future modification for program purposes). The requested funds will be used to (1) redesign the HVAC into a modern, energy efficient system that is centrally-controlled, zoned, and responsive to the standards that have shifted as a result of COVID19 pandemic; and (2) overhaul the electrical system to handle the greater needs as a result of the alteration of the building's overall use from residential to commercial. The Resource Center serves 2,000+ persons each year		100,000	\$ 100,000		
470 James Street: .Gather New Haven is seeking CDBG Public Improvements program funds to invest in capital improvements to its nature preserves and community gardens, all of which are free to enter and available for use by the community. Gather will use funds for projects at its highest need preserve, Pond Lily, and at its community gardens. At Pond Lily, funds will support hazard removal and other tree work, invasives removal, trail repair, and signage. At select gardens, funds will support pressing infrastructure work	\$	20,000	\$ 20,000		
City Activity: The Administrative Services Division of LCI uses public improvements funding on permanent improvements. This funding provides necessary repairs to public facilities: shelters, health care centers, and any other public use structure or land such as neighborhood gardens to support neighborhood revitalization and stabilization. The applicant must be the legal owner of the structure or can provide proof of a long-term lease agreement. The Activity must be in an income-eligible census tract or the facility must provide services for predominately low/moderate income clients (at least 51% of the beneficiaries).	\$	150,000	\$ 150,000		

Description	FY 22-23 Mayor's Proposed	FY 22-23 BOA Approved		
31 Jefferson St.: LEAP seeks funds to support key renovations of the LEAP Community Center in New Haven's Wooster Square neighborhood. LEAP's community center provides a safe place for academic enrichment, college preparation, athletics, swim classes, dance instruction, arts, gardening and cooking classes (all free of cost). The building is one of the oldest continuously operating youth centers in the country and was built over 100 years ago. The proposed repairs include replacing the wooden floors of the dance studio and gym as well as making needed repairs to the HVAC system. These renovations are essential in a 100-year-old building, which has sustained a lot of wear and tear over the decades. Much of the damage to the flooring of the dance studio and gym is due to water damage from an old and leaky roof (which wasrecently replaced with skylights). HVAC repairs are also long overdue. While some improvements to the HVAC system have been made over the past year, there remains a strong need for funding assistance to replace the building's boiler and re-insulate the building to prevent spikes in temperature during the summer and drops in temperature in the winter, which greatly hinder building usability. Funds will be used toward the cost of hiring contractors to carry out the aforementioned repairs to the dance studio, gym, and HVAC system. The community center serves over 1,300 children and adults annually.		\$ 35,000	Recommend cabinits	
48 Howe Street: The Connection facility located at 48 Howe Street has 2 boilers which provide approximately 25% of the hot water for the entire building and serve as a necessary backup for the Cogen Energy System. The boilers are supplied with water from four water storage tanks. One of these storage tanks – nearly twenty years old- has exceeded its life expectancy and is increasingly in need of repair, with outdated parts difficult to obtain. Recently this unit has developed a leak. The agency is requesting replacement of the existing water storage tank with a new unit compatible with the existing system 48 Howe St is a historical building owned and managed by The Connection which currently houses five residential and reentry programs for the State of CT serving approx. 1,000 clients a year. The building also provides shelter for program clients in the event of electrical outages or other natural disasters.		\$ 30,000		
118 Clinton Avenue: Funds will be used to purchase and install new commercial carpet at the Kimberly Acute Care and Short-term Rehabilitation Center. Mary Wade serves many of the oldest and frailest seniors living in Greater New Haven, with a total population of 210 on any given day. The Kimberly Center's 94 care beds are usually filled to capacity. As such, the Kimberly Center's corridors and other areas must withstand a great deal of heavy use each day, through foot traffic, wheelchairs, medical equipment, meal carts, and other use. Through nearly15 years of routine use, there are many worn, uneven and torn/threadbare areas in the Kimberly Center's carpets. Unfortunately, this situation creates some walking and tripping hazards for residents, patients, visitors and staff. Despite frequent proper cleaning, the flooring cannot be restored to "like new" condition. The project involves replacing the 15 year-old floor coverings in the Kimberly Center with new, low-maintenance commercial-grade carpet tiles that will ensure a healthier care environment for patients, residents, staff, and visitors. With this project, the environment of care within the Kimberly Center will be safer, cleaner and more hygienic, and contribute to the health of 300 patients/residents, staff, and many visitors.	\$ 27,502	\$ 27,502		
City Activity: The Code Enforcement program will proactively enforce local housing, building, health, fire and zoning codes and eliminate and reduce slum and blighting influences in the City. CDBG funded Code Enforcement activities are conducted in the City's low- and moderate-income areas, which include Census Tracts 1402, 1403, 1405, 1406, 1407, 1413, 1415, 1416, 1421 and 1423. These tracts correspond with the City's Dixwell, Dwight, Newhallville, Fair Haven, Hill and West Rock neighborhoods. In accordance with CDBG regulations it allows the City of New Haven to adequately staff the Code Enforcement Division with Inspectors capable of working with other Departments to enforce code compliance in targeted deteriorating geographical areas and to implement a program (Livable City Initiative program) aimed at arresting further deterioration of its housing stock. The City implements a Code Enforcement Program under CDBG with the purpose of providing daily housing inspections, follow up and data entry, interdepartmental referrals to police, fire and health, as needed. Code Enforcement also coordinates the Residential Licensing Program and Section 8 inspections on behalf of the Housing Authority prior to rental. Proactive programs such as the Residential Licensing Program are required by Ordinance for every rental unit in the City of New Haven,. All rental units are to have a posted rental license that the unit is up to state and local codes prior to occupancy. Each geographical location has a Code Enforcement Inspector and Neighborhood Specialist that surveys the neighborhood daily for compliance issues, blight, vacant buildings, and surveys the housing stock for deterioration and unsafe structures that may need to be referred for condemnation if found to be unfit for human occupancy. The Housing Code Enforcement division responds to tenant issues, City Departments, social service agencies and the general public. Citations are given for housing code violations and penalties are levied for non-compliance. All referra	\$ 1,094,607	\$ 1,094,607		
501 Quinnipiac Ave.: Continuum of Care, Inc. provides comprehensive residential services, case management, crisis services, and housing support services to adults challenged by psychiatric disabilities, developmental disabilities, homelessness, and substance abuse treatment needs while maintaining their rights and dignity as productive members of society. Continuum of Care (CoC) is requesting funds to rebuild an original second-floor deck at one of its Extended Living Programs, Serenity House, located at 501 Quinnipiac Avenue in New Haven. The current second-floor deck is part of the original construction and is showing signs of age and deterioration, as well as not being up to current building code. This creates a significant safety concern, as this deck is also used as supplemental egress in the event of emergency evacuation. The reconstruction of the second floor deck will increase safety for the residents and staff of this facility, serve as a safe and stable egress in the result of an emergency, and ensure the building is up to code. 5 individuals reside in the structure.	\$ -	\$ -		
85 Englewood Drive: Marrakech owns a 3-unit building at 615-617 Whalley that currently houses 5 individuals. These individuals have disabilities and receive services from Marrakech. The funds requested will support the renovation of the bathroom in the first floor unit to allow for the tenants to age in place. The renovations proposed will make the bathroom safer and more accessible. The bathroom renovation will benefit the 2 persons occupying the first floor unit.	\$ -	\$ -		

Description	FY 22-23 Mayor's Proposed	FY 22-23 BOA Approved		
City Activity: The Administrative Services Division of LCI uses this program to help existing homeowners with a vested interest in their neighborhoods, who lack the funding to correct housing or building code issues, upgrade energy efficiency, systems replacement, handicap accessibility and other repairs of a non- luxury nature, with grants or loans from this source of funding. LCI also provides assistance to non-profit agencies with gap financing for project hard costs. The projects must be construction ready and fully financed except for a moderate gap. This funding is for staff costs for project delivery, rehabilitation hard costs for gap financing and lead based paint evaluation for the residential loan program. The funding objective is to benefit L/M income housing.		\$ 436,741		
NHS works to provide decent affordable housing to meet the needs of individuals, families, and the community. We provide a unique opportunity for low- and moderate-income families to become homeowners without sacrificing either the quality of their living space or their long-term financial stability. The rehabilitation of severely blighted properties can transform a neighborhood's physical appearance and increase the property value of existing homes. CDBG funding will support the complete gut rehabilitations of currently blighted properties and other NHS services that work toward the agency's goals of neighborhood stabilization and revitalization. NHS has identified three properties to date and expect to identify three more prior to the start of the program year. The three houses already identified are 572 Winthrop Avenue, 470 Howard Avenue, and 27 Frank Street. Three additional houses are TBD. All will be gut rehabs.	\$ -	\$ -

Inspired Communities Inc. (Adult Institute)	\$ 27,500	\$ 23,650	Community Foundation of Greater New Haven (application in March 2023, upon expiration of prior award) \$20,000 Donations - \$ 5,000	10P	\$ 10,000		Location. 31 Lander St. New Haven. The Inspired Communities Inspired Adult Institute will be located in Newhallville. The objectives of the program are to create economic opportunity and support neighborhood engagement in New Haven adults (primarily Newhallville residents) earning less than 80% of the area median income. These objectives are to help local adults turn their skills and experiences into employment opportunities, including microbusiness and self-employment opportunities for people who face difficulty obtaining employment because of their past history, and to provide opportunity for participants to engage in positive neighborhood empowerment. Outcomes are to support the adults participating in the program to have developed a path towards a steady income stream that is based on their skills, experience and passions, and to have discovered how to engage in community empowerment activities. When adults join the Institute, they will receive orientation and information about the program and its goals: to create opportunity and engagement for our participants. They will then choose one of two tracks for participation: (1) Community empowerment: Participants will learn about how business and government run; how the structures affect our community; how decisions are made; and how to influence those decisions. Participants will identify their priorities and practice communications to engage and impact their community. (2) Economic Development (Business and employment re-imagined): Participants will utilize an inventorying process to identify their experiences, strengths, skills, and passions. They will brainstorm with staff and mentors to develop a plan for their own employment or business future. They will learn basic business skills including marketing, budgeting, billing, and compliance. They will also be assisted in trials of their microbusiness with local community partners. The funds requested will pay for staff and other necessary program expenses to support the adult participants who have joined the	To share information and experiences that inspire, empower and educate community builders. We are changing Newhallville's narrative, so that people can build community and local economic vibrancy, where dollars can stay in the community and help build our neighborhood. A stronger community, cultivation of youth, positive self-esteem, and shared community leadership will take us into the future.	\$ 10,000	\$ 9,537
Inspired Communities Inc. (Youth Institute)	\$ 27,500	\$ 23,650	Community Foundation of Greater New Haven (application in March 2023, upon expiration of prior award) \$20,000 Donations - \$ 5,000		\$ 10,000		Location. 31 Lander St. New Haven. The program is designed to help youth obtain new skills and experiences, and to expand their vision of their individual potential. The Inspired Communities Inspired Youth Institute will be located in Newhallville. The Youth Institute will serve residents of the City of New Haven under the age of 18, primarily those 7 – 12 years old and living in Newhallville. When youth join the Institute, they will receive orientation and information about the program and its goals: to create opportunity and engagement for our youth. They will then participate in programming, which is based in Newhallville history and culture and focused on economic futures and civic engagement. It will support children in learning: - How does government work, - How do people earn a living, and how does a community support a business environment, - What is our urban ecology, how do we affect it and how does it affect us (including Newhallville's legacy of industrial toxic waste), - Health and wellness, connected to social determinants of health, and - Street Literacy, including reading and math and the history of our community. The funds requested will pay for staff and other necessary program expenses to support the children and youth who have joined our program.	To share information and experiences that inspire, empower and educate community builders. We are changing Newhallville's narrative, so that people can build community and local economic vibrancy, where dollars can stay in the community and help build our neighborhood. Immigrants are often barred from or have limited access to public benefits, including health care, income support and SNAP (food assistance). Many immigrants seeking employment and education face language barriers and difficulty in transferring employment credentials to the United States. IRIS' Services for Undocumented Neighbors (SUN) program allows specialized case managers to support recent non-refugee arrivals in gaining access to legal services, employment authorization and other government benefits for which they may be eligible. The SUN team provides case management services for its clients, using a strength-based assessment model, that offers long-term support for successful integration. Additional wrap-around services provide clients with support in education, health, housing and legal matters. Ensuring our clients have access to these kinds of services allows us to fulfill our mission to help displaced people establish new lives, regain hope, and create self sufficiency. IRIS requests funds to support the salary of a SUN case manager. Case management lies at the heart of IRIS's approach to assisting newcomers in meeting basic needs and integrating into the community. Case managers assist immigrants in finding housing, food assistance, health care, education, job training and, where work authorization has been granted, employment. In order to meet the growing need, IRIS will create an additional case manager position in the SUN program. The requested funds would be used to support this case manager position.	The mission if IRIS is to enable refugees and other displaced people to establish new lives, regain hope and contribute to the vitality of Connecticut's communities.	\$ 10,000	\$ 9,537
JUNTA for Progressive Action	\$ 127,282	\$ 236,383	3 \$ 254,563	New Haven Health Department (2022- 2023) \$120,000, New Haven Health Department (2023) \$40,000, Graustein \$20,000, City Missionary \$10,000, Community Foundation for Greater New Haven \$30,000		\$ 17,500		Location: 169 Grand Ave. New Haven. Junta offers no-cost social services, legal services, immigration services, adult education, and youth programs to over 2,000 low-income individuals annually. Services are interconnected to achieve the greatest net benefit for the intergenerational households served. Junta's Case / Crisis Management Services are at the core of what they do. The case management team provides socioeconomic security with direct support and educational tools, leading to transformative changes at both the individual and community levels. Junta assists participants with the coordination of benefits for applicable State or Federal assistance programs (e.g. SSI/SSD, Housing Assistance, Food Stamps, Medicaid, Medicare, etc.) and administers food assistance and vouchers, offers legal advocacy, and conducts translation and interpretation services. Junta's crisis services team offers bilingual and culturally-sensitive services to help participants' obtain government aid by guiding them through various state and municipal application processes. For many participants, limited English, bureaucratic jargon, illiteracy, and the digital divide hinder their capacity to find and apply for aid. The global recession, inflation and burgeoning housing crisis continue to disproportionately impact Latinx communities in New Haven. CDBG funds will be used to support salary costs for the case management team.		\$ 17,500	\$ 16,689
Liberty Community Services	\$ 65,000	\$ 60,413		Dept of Mental Health & Substance Abuse \$29,365	300P	\$ 12,000		Location: 153 East St. New Haven. Liberty has two goals: 1) help people who are experiencing homelessness or at risk of being homeless secure and maintain permanent housing; and 2) provide essential services to support people in maintaining their housing. On a national level, libraries have found people experiencing homelessness and other social service needs tend to gravitate to them. Libraries serve as a safe place where people can wash up, protect their possessions, use a restroom, and find a quiet spot to feel control over their environment. To response to this, in 2014 Liberty, together with the public library, provided "Library Office Hours" in order to meet with homeless two times a week. Although the support of the program has allowed for expanded services and availability, increased demand for this service is still evident, measured by the number of persons who use the service and the number of people who can not be accommodated during the office hours. The CDBG funds requested will be used to increase this intervention to meet the needs. With these funds, Liberty will hire one full time case manager to work 35 per week at Ives and 1 part time case manager to provide a 4 Hour block of office hours at Fair Haven, Wilson and Stetson.	living with HIV/AIDS, mental illness and/or addiction. Liberty administers financial assistance programs for families and individuals to prevent homelessness and for housing startup.		\$ 11,444

## Description

BIMEC has requested funds to support the construction of 12 studio apartments on a vacant lot at 53 Shelton Avenue. CDBG funds may not be used for new construction unless the applicant is a city-designated Community Based Development Organization CBDO. BIMEC is not a city-designated CDBO at this time. NOT ELIGIBLE for funding under CDBG.

## Notes

NOT Eligible 570.207 Ineligible activities, 570.207 (b)(3) CDBG funds may not be used for the construction of new permanent residential structures or for any program to subsidize or assist such new construction, unless the agency is a locally-designated CBDO.
