Mitzi,

The below cover narrative should have been submitted with my earlier letter.

The NHSWRA Board is troubled by the current plans to move putrescible MSW (municipal solid waste) sourced outside of New Haven into the City and transferred back out of New Haven. The current plan, in our view, lacks cohesiveness and is confusing. Accepting MSW at this facility, potentially, undermines the charge of this Board which is to exercise supervision over the waste stream in New Haven, and enforce waste flow control ordinances. Accepting waste from surrounding towns which may, and all likelihood, will include Hamden, Cheshire, Wallingford and Meriden (as well as any other MSW within a 30-mile radius of New Haven) does little to protect the citizens in this port area of New Haven from the noise, traffic, odor & air quality associated with such an operation.

This letter was submitted for your use during your review and consideration.

If you have any questions or would like to discuss, please feel free to contact me at 203.410.6823, or email me at pbarbour@nhswra.com.
