ORDER AUTHORIZING THE MAYOR OF THE CITY OF NEW HAVEN TO APPLY FOR AND ACCEPT THE COMPOSTING AND FOOD WASTE REDUCTION PILOT PROJECT GRANT FROM THE US DEPARTMENT OF AGRICULTURE TO PILOT STRATEGIES FOR INCREASING FOOD RESCUE AND FOOD SCRAP DIVERSION IN THE DOWNTOWN AREA.

WHEREAS, studies estimate that nearly one third of New Haven's solid waste stream is organic material that could be composted; and

WHEREAS, currently the City of New Haven's food waste is incinerated along with other municipal solid waste at the Bridgeport incinerator, exacerbating regional air quality and contributing to the air pollution that causes climate change; and

WHEREAS, the New Haven Office of Climate and Sustainability recognizes that composting recycles nutrients from food scraps, leaves, woody debris, and other organic matter; and

WHEREAS, the New Haven Office of Climate and Sustainability recognizes that composting reduces air pollution and improves soil health; and

WHEREAS, the New Haven Office of Climate and Sustainability recognizes that converting wasted food to animal feed, is behind only source reduction and feeding hungry people in the Environmental Protection Agency's Food Recovery Hierarchy as it makes productive use of food that would otherwise be incinerated or landfilled; and

WHEREAS, reducing New Haven's carbon footprint will require all entities to adopt sustainable materials management practices; and

WHEREAS, residences and businesses served by private haulers make up nearly two thirds of the City's solid waste tonnage annually; and

WHEREAS, public schools play an essential role in educating our youth regarding recycling, composting, and sustainable materials management; and

WHEREAS, New Haven Office of Climate and Sustainability recognizes that it is critical to pilot and demonstrate the value of food waste diversion strategies for large residences and commercial business; and

WHEREAS, the City of New Haven will, in partnership Center for EcoTechnology, Haven's Harvest, New Haven Public Schools, and Brightfeeds, apply for funding from the US Department of Agriculture; and upon receipt of such grant, the City will accept said grant in its entirety; and

WHEREAS, the US Department of Agriculture has issued a request for proposals, entitled the Composting and Food Waste Reduction Pilot Project, intended to develop and test strategies for planning and implementing municipal compost plans and food waste reduction plans.

NOW, THEREFORE, BE IT ORDERED by Board of Alders of the City of New Haven that the Mayor, on behalf of the City is authorized to apply for and accept the grant mentioned herein from the US Department of Agriculture.

BE IT FURTHER ORDERED that the Mayor, is authorized to execute said application for funding for an amount of \$334,610 and to execute any revisions, amendments or modifications to said contract.
